Executive Summary

PAVE ACADEMY CHARTER SCHOOL - 331500860927

The New York State Education Department (NYSED) has developed the online *2022-23 Consolidated Application for ESSA-Funded Programs* to support the timely administration of ESSA-funded programs to local educational agencies (LEAs) across the state.

The application is streamlined to focus on the required assurances from Section 8306 of the ESSA, as well as fiscal and programmatic information that staff have determined is necessary to properly administer each program. The additional information requested in the application will allow NYSED reviewers to ensure that all LEAs are fully prepared to effectively address key provisions of ESSA regulations. For example, the application includes a significant focus on consultation with required constituent groups in the design of ESSA-supported programs. Even though LEAs will provide assurances that consultation has occurred, NYSED has determined that evidence of that consultation should be provided as part of the application process. Toward that end, documentation of the constituent groups included in consultation, along with a *Written Affirmation of LEA Consultation with Private School Officials Form* will be required as part of the initial application.

The online format dramatically improves NYSED's capacity to collect and analyze district-provided data in a timely manner, and then utilize that data to provide targeted support to LEAs as part of shared continuous improvement efforts. For example, the format will allow NYSED to quickly review LEA-determined per pupil amounts for Title I, Part A programs to confirm that funds for services are appropriately distributed among eligible public and non-public schools. For LEAs whose calculation methodologies are not clear or are not consistent with ESSA requirements, NYSED program staff will be able to provide immediate technical assistance to ensure the proper distribution of funds.

The online application also supports better coordination among NYSED program offices – furthering the Department's capacity to support continuous improvement through technical assistance. For example, consultation forms and other data related to equitable services to private school students and teachers will be shared with the Ombudsman to help coordinate technical assistance and monitoring efforts between the Office of ESSA Funded Programs and the State Office of Religious and Independent Schools. Similarly, data about an LEA's use of Title II, Part A funds will be easily shared with District and School Review Teams from the Office of Accountability and the Office of Educator Quality and Professional Development to help LEAs maximize the use of evidence-based professional development strategies in identified schools.

Questions about the *2022-23 Consolidated Application for ESSA-Funded Programs* can be directed to the Office of ESSA Funded Programs at 518-473-0295 or via email at conappta@nysed.gov.

ESSA Programs - Transferability

Page Last Modified: 08/09/2022

Transferability

As confirmed by the United States Department of Education (USDE), an LEA opting to use *Transferability* must calculate equitable service shares based on the total amount of funds available under a program *after* a transfer (ESEA section 5103(e)(1)). Just as an LEA may not transfer funds to a particular program solely to provide equitable services, it may not retain funds solely for this purpose. Thus, if an LEA chooses to transfer 100 percent of its Title II Part A or Title IV Part A funds to Title I Part A, it may not provide equitable services under Title II Part A or Title IV Part A.

- In the chart below, please identify funds subject to Transferability FROM either Title II or Title IV and the program area to which they are being assigned.**

Title I Part A - Program Information (Part 1 of 6)

PAVE ACADEMY CHARTER SCHOOL - 331500860927

1. Did the LEA evaluate the progress made toward achieving the Title I, Part A program goals set for the previous school year?

- Yes, the LEA evaluated the progress made toward achieving the goals from the previous school year.
- No, the LEA did not evaluate the progress made toward achieving the goals from the previous school year.

1a. To what degree did the LEA make progress toward achieving the Title I, Part A goals from the previous school year?

- The LEA exceeded the goals it set for the previous school year.
- The LEA met the goals it set for the previous school year.
- The LEA did not meet the goals it set for the previous school year.

2. In the space provided below, please describe (1) the specific student needs that impact academic achievement, and (2) how your Title I, Part A program is designed to address those needs. The needs should be identified through a recent needs assessment, include homeless and/or neglected youth as applicable, and provide the basis for coordinated efforts on the part of the LEA to address them.

(PLEASE NOTE - All program activities supported by Title I, Part A funding should be explicitly aligned with proposed expenditures represented in the FS-10 budget.)

PAVE Academy Charter School (PAVE) is located in Red Hook, Brooklyn, and 57% of our families live in the Red Hook Houses, one of the largest public housing developments in New York City. The remaining students live in other public housing complexes and/or low-income neighborhoods in Brooklyn. District schools in the neighborhood are among the lowest performing in the city. We have a higher than average percentage of students with special needs for the New York City Department of Education. Due to our proximity to the neighborhood of Sunset Park, we also have a high percentage of ELL students, children of immigrants, and children of non-English speakers.

In our assessment of student attendance, PAVE has experienced significant dips in our low-income students' attendance. The average daily attendance over the past two academic years was 92.12%. Upon further review of our attendance records, we found students with the lowest attendance are also those most at risk of academic failure.

To tackle our dip in attendance, we are focusing on our relationships with parents/guardians. We understand students must have their basic needs met in order to perform well academically, and this is why Title I will be used to partially fund our School Social Worker and designated Homeless Liaison. Title I will also partially fund our Family and Community Engagement Manager, whose work focuses on engaging families in PAVE's academic culture and connecting with Community Partners to further meet the social-emotional needs of our students.

Based on data collected from daily exit tickets, content-specific unit assessments, quarterly reading assessments, and interim assessments, we recognize our most at-risk students need additional support. Title I will partially cover our Director of After School Programming, who is leading an after-school program centered in supports such as Homework Help, Tutoring, and extracurricular activities.

Additional services for at-risk students and their families will be provided by the Director of High School Placement, whose work motivates our students to come to school and plan their future at the high schools of their choice.

As we track the impact of these roles and the progress of our students, our work is also supported by the data consultant, which is partially funded by Title I.

- Yes, the LEA evaluated the progress made toward achieving the goals from the previous school year.
- No, the LEA did not evaluate the progress made toward achieving the goals from the previous school year.

1a. To what degree did the LEA make progress toward achieving the Title II, Part A goals from the previous school year?

- The LEA exceeded the goals it set for the previous school year.
- The LEA met the goals it set for the previous school year.
- The LEA did not meet the goals it set for the previous school year.

2. In the space provided below, please describe (1) the specific student and/or teacher needs that impact academic achievement, and (2) how your Title II, Part A program is designed to address those needs. The needs should be identified through a recent needs assessment, and should provide the basis for coordinated efforts on the part of the LEA to address them.

(PLEASE NOTE - All program activities supported by Title II, Part A funding should be explicitly aligned with proposed expenditures represented in the FS-10 budget.)

At the end of the year, we conducted an assessment of teacher needs based on student performance, classroom observations, and teacher feedback. The review of this data revealed that in the coming year, teachers will require extensive training in intellectual preparation and student data analysis. To provide teachers with this necessary training, we must first train our Academic Leaders in the same areas and drive teacher results through the effective coaching of our leaders.

To accomplish this, we have partnered with the Lavinia Group to provide on-site training and observations of our Academic Deans and their coaching sessions with teachers. They will target their support by assessing needs during observations and will establish measurable goals for each leader.

Data sources include:

- o Exit tickets
- o Unit Quizzes and Tests
- o Literably assessments: At least 3x per year for all students (beginning, middle, and end of year) and up to 6x per year for students reading below grade level

PAVE utilizes this data to design targeted professional development sessions for teachers, held weekly.

3. In the space below, please describe the specific goals and/or outcomes the LEA has identified based on the information provided above. The goals/outcomes should be measurable and aligned directly to the above identified needs/obstacles impacting student achievement.

Through the coaching and professional development activities listed above, PAVE expects that all teachers will meet their individual professional development goals.

Professional development will also be gauged by the school's attainment of the reading improvement goals, as follows:

- All students at grade level will demonstrate growth of one year,
- All students 1 year below grade level will advance 1.25 years,
- All students two or more years below grade level will advance 1.5 years.

Finally, the school will measure the success of our professional development by our progress toward meeting the school's overall charter goals. Progress toward these goals was made in the prior year and PAVE anticipates that there will be an increase in progress in the coming year.

2. **In the space provided below, please describe (1) the specific student needs that impact academic achievement, and (2) how your Title III, Part A - ELL program is designed to address those needs. The needs should be identified through a recent needs assessment, and should provide the basis for coordinated efforts on the part of the LEA to address them.**

(PLEASE NOTE - All program activities supported by Title III, Part A - ELL funding should be explicitly aligned with proposed expenditures represented in the FS-10 budget.)

PAVE Academy Charter School enrolls English language learners whose needs impact their academic achievement. Our Title III program coordinates the implementation of ELL identification, instructional intervention, professional development, and family engagement into a program that meets the needs of our identified English Language Learners and Multi-Lingual Learners.

(1) Student Needs That Impact Academic Achievement

To determine student needs that impact student achievement, we collect, analyze, and use data upon entrance to the school and throughout the school lives of our ELLs.

Needs Assessment

PAVE Academy Charter School identifies and measures the success of our ELLs/MLLs through rigorous data collection and continuous analysis through student assessment. We constantly refer back to these measures to prioritize our decision-making on a school-wide and individualized student basis. These measures include:

- Initial student identification through the **Home Language Questionnaire (HLQ)** and the **NYSITELL** (when student is initially enrolled in a NYS public school).
- **NYS Examinations:** Students in grades three through eight take the Common Core-aligned state tests in the spring designed to assess student mastery in the core subjects. Our state test results and our analysis of what we can do to improve them school-wide, and especially for our ELLs, are reported to our authorizers annually.
- **Interim Assessments:** Internally, teachers administer interim assessments that measure whether students have mastered what we have taught, providing teachers with the information and flexibility to intervene as needed for each individual student. Results are uploaded into the data analysis portal of our student information management system. Teachers and principals spend assigned time after assessments dedicated to reviewing the individual assessments and creating data-driven instructional plans that target whole class, small group and one-on-one instruction to address any gaps in student learning.
- **Other qualitative data:** In addition to academic information, we also evaluate to see if ELLs are disproportionately susceptible to suspensions, removals, and other elements that measure our school culture overall.

We compare the growth of our ELL subgroup with their non-ELL peers throughout the year to measure their progress. As a data-driven school, we then leverage our interim assessments and other data to make changes to individual student's learning plans in real time. As a measure of proficiency, the NYS assessments allow us to measure which students are exiting ELL status and the pace in which they do so, which thus allows us to perform standards-aligned program evaluation. Through this data, we can implement new or buttress our localized instructional approaches to better support our students' oral, verbal and written language skills development. Overall, we can better utilize more data-based instructional design including explicit vocabulary instruction and interventions in English Language Arts, math, and other content areas.

(2) How our Title III, Part A - ELL program is designed to address the above stated needs

We developed our ELL program to address the above stated needs by increasing proficiency in English, and by providing ongoing and sustained professional development for our staff, and by engaging parents, families, and our community.

Increase English Proficiency

To support the differentiated needs of our ELL students, we intend to implement an embedded English language instructional program that is responsive and structured to students' instructional needs. Embedding our interventions directly into the classrooms, especially second teacher classrooms, will allow for real-time remediation and instructional language support.

These supports will further our goals to meet students where they are. For example, should they speak less common languages or are very new to the English language, we may utilize software applications to build language skills and avoid language isolation. In any case, familiarity with and inclusion of the NYS Bilingual Common Core Progressions is built into our interventions and our professional development program.

Professional Development

The funded portion of our Title III program will include supplemental, embedded teacher coaching as well as professional development for programs

ESSA Programs - Title III English Language Learner (ELL) - Program/Fiscal Information

based on the specific learning needs of English Language Learners and any associated curricular materials.

Our ELL specialists will ensure that we integrate the high-quality effective professional development with daily instruction by improving teacher practice, including, but not limited to: development of data-driven ELL intervention plans; continuous assessment of students; communications between the content area and support teachers teacher to ensure smooth transition of support; instruction inside the classroom through push-in interventions; and additional supplemental supports based on individual student needs

Both general education and support teachers will receive ongoing professional development and support in implementing the Common Core Bilingual Progression, including the Main Academic Demands as well as the Grade Level Academic Demands. Professional development in implementing Linguistic Demands will also be included in ongoing teacher development.

Parent, Family, and Community Engagement

Stakeholder engagement involving both our students’ families and the community at large is a linchpin of our existence as a charter school. As we actively seek English Language Learners and their families so that our school represents the district we serve, we also leverage our community’s resources to both support the diverse needs of our students and inform our own school’s development as a community-based LEA. To support our outreach, as the need arises, we intend to utilize translation services at all of our family engagements, parent-teacher conferences, curriculum nights, and other daily interactions with parents who need it. For this year, we expect to use translators fluent in Arabic.

As a school, we have staffed family engagement staff as part of our main office and also established a host of community events and parent training programs hosted both at our site and beyond to broaden our outreach. These initiatives have proven effective at supporting parents with helping their students academically at home, as well as identified supports that as a school we have provided, including resource rooms and guidance support. The relationships we have nurtured with various community-based organizations has also provided additional linkages to socio-emotional, health, and other resources that benefit both students and parents alike.

3. In the space below, please describe the specific goals and/or outcomes the LEA has identified for ELLs based on the information provided above. The goals/outcomes should be measurable and aligned directly to the above identified needs/obstacles impacting ELL student achievement.

Goals and Outcomes

At PAVE Academy Charter School, our goals for our English Language Learner population center around first, the correct identification of all students who require ELL services and second, assuring that each ELL student exits the program with proficiency in the English language.

Our needs assessment of the most recently available state assessment or Regents exam data and our internal assessments indicate that the school must continually dedicate its resources to support more in-depth language acquisition, as defined by the following goals and outcomes:

- Identified English Language Learners with at least two years of attendance will demonstrate English language proficiency, as indicated on the NYSESLAT.
- Identified English Language Learners who have tested out via the NYSESLAT will meet or exceed state learning standards in ELA and Math within two years and pass the requisite Regents exams to meet graduation requirements.

(PLEASE NOTE - All program activities supported by Title IV, Part A funding should be explicitly aligned with proposed expenditures represented in the FS-10 budget.)

PAVE Academy Charter provides its students with a wide range of special programs designed to enrich the learning environment and focus on the development of the whole child. In addition, our small school environment and close-knit community provide a safe haven for our students. Therefore, in our needs assessment, we determined that Title IV, Part A would better serve the school community by providing additional funding to be applied to our professional development program, which was funded at a much higher level by Title II last year. Professional development will be focused this year on closing the persistent gap we have identified in reading between our students and their peers in more advantaged communities, as evidenced by Literably and NWEA Map Growth data.

2f. In the space provided below, please describe the goals, objectives and intended outcomes of the Well Rounded Educational Opportunities, Safe and Healthy Students, and/or Effective Use of Technology content areas of the Title IV, Part A program based on the results of a recent needs assessment.

Through the coaching and professional development support of the Lavinia Group listed, PAVE expects that all teachers will meet their individual professional development goals set by the Principals, in partnership with the Executive Director and supported by Academic Deans.

Professional development will also be gauged by the school's attainment of the reading improvement goals, as follows:

- All students at grade level will demonstrate growth of one year,
- All students 1 year below grade level will advance 1.25 years,
- All students two or more years below grade level will advance 1.5 years.

Finally, the school will measure the success of our professional development by our progress toward meeting the school's overall charter goals.
